CIPŐGYÁR

INTRODUCTION

The Ipoly Shoefactory Ltd. is Hungary's leading manufacturer of safety shoes, which has been state-owned since its establishment more than 65 years ago.

The basic element of our work is to be at the disposal of all our partners with modern, constantly renewing, quality, competitive product range and a constant, high standard.

OUR COMPANY

Ipoly Shoefactory Ltd. is not the only domestic company producing work footwear in Hungary, but also an integral part of the Balassagyarmat Prison and Jail. Although our shoe factory primarily (but not exclusively) employs detainees, it is also a modern, state-owned enterprise operating under market conditions. In our factory we make occupational safety and formal footwear for various professions, which without exception meet the current occupational safety regulations.

OUR COMPANY

The almost 160,000 pairs of shoes we make every year are very useful in many ways:

- It is able to serve the special footwear needs of several state-owned companies and organizations, including the needs of prisoners and law enforcement agencies, but we also regularly deliver to the workers of the Hungarian Railways and Hungarian Post.
- It is a great help in the reintegration of prisoners after their release, in creating and maintaining their ability to work. Thanks to our company, they can take a profession, a professional course, they return to society with a new approach, and this significantly reduces the chances of relapse.
